ABOUT ME

I am a self-motivated and detail-oriented Computer Science undergraduate. I have a strong foundation in front-end technologies and a passion for full stack development. Proficient in HTML, CSS, JavaScript, and Python, with hands-on experience building responsive web applications. Eager to contribute to team success through hard work, continuous learning, and effective collaboration.

EDUCATION

E.G.S. Pillay Engineering College 2022 - 2026

B.E.Computer Science and Engineering

GPA:83%

Crescent Matriculation Higher Secondary School 2020 - 2022

Computer science

Infant Jesus Matriculation School 2019 - 2020

General Curriculum

PROJECTS

1. Personalised Financial tracker

A personalized financial tracker web app that helps users log expenses, set budgets, and monitor savings. Built with a user-friendly interface and real-time tracking features for better money management.

2. Greenden

<https://aishwaryasenthilnathan.github.io/Greendenwithjs/>
Greenden is a plant-themed website with a modern UI, built using HTML, CSS, and JavaScript. It includes interactive features like smooth scrolling and responsive product sections.

3. Perfumy

<https://perfumy-ashy.vercel.app>

Perfumy is a simple React-based perfume store website with a clean UI and responsive design. It showcases products with smooth navigation.

4. Udemmy Clone

<https://udemmy-react-mu-hazel.vercel.app/>

Udemmy Clone is a React-based learning website with a clean design and dynamic course display, offering smooth navigation like the real Udemmy.
